PERFORMANCE SUMMARY
Network health remains strong
All primary service metrics are within operational targets. BS-002 utilization and BS-004 connectivity require attention.
Export PDF
Overall network score
94
/ 100
Excellent performance
Key findings
Availability above target
99.9% network uptime maintained.
High load at BS-002
Utilization reached 92% during peak hours.
BS-004 offline
Connectivity lost at 14:32 today.
Recommended actions
01 Dispatch field team to inspect BS-004.
02 Review capacity planning for BS-002.
03 Continue monitoring call drop trend.
